## Weather proof junction connector

### SPECIFICATIONS

#### OVERVIEW

Junction box with double terminals 2x2.5 mmq and 1 INOX stainless steel screw included.

IP68 weather proofed, 1,3 mt depth

No limit life

Safe and non-toxic

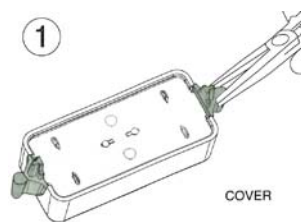

Ready for use

Reaccessible

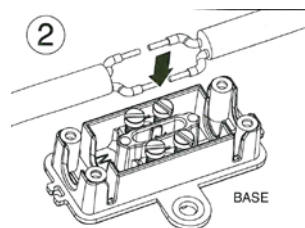

\*The company declines any possible liabilities for direct or indirect accidents and/or damage produced by wrong and inappropriate use.

Part number: 5665

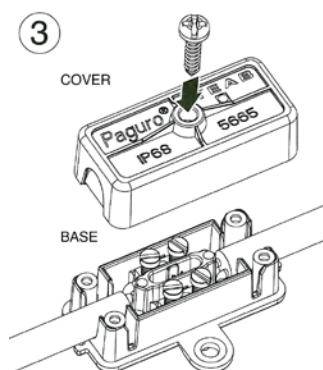

#### INSTALLATION

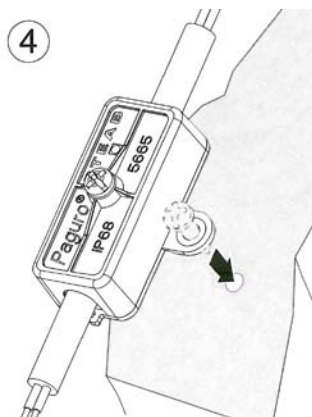

Remove the clips on both ends of the Gel cover by breaking along the moulded membrane as shown.

Prepare and attach the conductors to the terminals in the base as shown

Assemble the Gel cover onto the base and push firmly to ensure cover is correctly positioned. Insert and fasten the INOX screw to ensure Gel cover stays in place.

Optional fitting of the Paguro to wall or post etc. can be achieved by using a suitable screw through the moulded mounting lug (hole diameter 3.3mm) on the side of the unit as shown.
